Splitty Reach Pro Tunable White Plug-In Wall Light By Koncept Lighting

Description

The Splitty Reach Pro Tunable White Plug-In Wall Light is inspired by the fluidity of water droplets, exhibiting smooth motion and adaptability. The wide droplet-shaped LED head casts an even, diffused glow onto any surface, providing both ambient lighting and functional task lighting. Color temperature is tunable from 2700K to 5000K. For ultimate adjustability of light direction, the head and jointed double arm can each pivot up and down and rotate 360 degrees. The touch button on the head is used for on/off and continuous dimming, and a built-in 1.5A USB-C port can charge phones and other devices. A discreet occupancy sensor maximizes energy efficiency, shutting the lamp off after 15 minutes of inactivity. Additional environmentally friendly features are its low power consumption, fully recyclable aluminum and water-based paint.
