DESCRIPTION

The Kasa Table Lamp has a unique, modern design that is perfect for any home or office. Designed by Eli Gutierrez, the lamp featured a wood veneer shade, tilted sideways to open its conical shape to the room it illuminates. A center mushroom-like rod reflects light into the shade to quietly and elegantly light the space. The shade connects to a cylindrical marble base that pairs beautifully with the metal and wood materials. Pulse Button for On/Off quick press or Min/Max with continuous press.
