Stellar Nebula Pendant

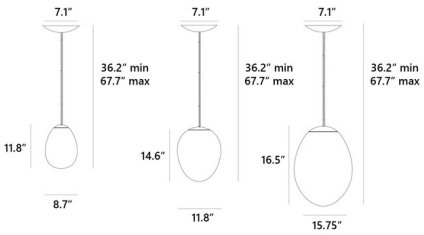

By Artemide

Description

The Stellar Nebula Pendant by Artemide, a breathtaking masterpiece by BIG (Bjarke Ingels Group), is a profound reinterpretation of traditional Venetian glassblowing techniques. This stunning pendant transcends mere illumination, becoming a celestial object that captures and refracts light in an extraordinary manner, creating a truly captivating visual experience.It features an organic crystal glass diffuser, meticulously crafted and then treated with a sophisticated dichroic finishing process. This innovative treatment gives the glass a mesmerizing, iridescent quality, causing it to shift in color and brilliance depending on the viewing angle and light source. The result is a dynamic interplay of light and color, reminiscent of nebulae in deep space, creating an ethereal and captivating glow. Each Stellar Nebula pendant is a unique piece, showcasing the unparalleled artistry of Murano glassmakers combined with cutting-edge design, adding a touch of refined elegance and a truly luxurious appeal to any Contemporary space.
