HIRO Control with Reversing

By Hinkley Lighting

Description

The HIRO Control with Reversing is designed for indoor use with Hinkley 6-speed DC motor ceiling fans. Incorporating WiFi and RF technology, it enables motor on/off, 6 speeds, and forward and reverse. For fans with a light, the HIRO can also turn the light on or off and dim it. The control can be wall-mounted or hand-held. A face plate and cradles are included, and the remote fits in standard decorative style face plates as well. A manual on/off switch is also included. Note: To use this HIRO control over WiFi, the fan must have a WiFi receiver.
