Aviva Folding Chair Set of 2

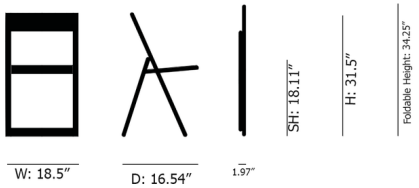

By Magis

Description

The Aviva Folding Chair Set of 2 is a folding chair designed by Marc Berthier at the end of the 70s in response to the mobility of the urban lifestyle. The chair folds completely flat and is designed for high-standard industrial manufacturing, with frames made of just two elements of beech wood joined together by small metal parts. This simple chair is shaped to achieve ergonomy for both seat and backrest and accommodate the human body.
