Bell Armchair Set of 4

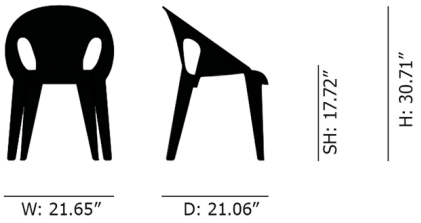

By Magis

Description

The Bell Chair Set of 4 is produced with recycled polypropylene, which is obtained from the waste generated by Magis' own furniture production and from the local car industry. The patented material excludes almost all virgin or new materials and can be 100% recycled again after use. This way, Bell Chair forms an almost closed material cycle. Its bulbous geometry is not only structurally strong, it also makes the chair extraordinarily comfortable and visually appealing. Stackable up to 24 chairs.
