Sam Son Low Armchair

By Magis

Description

The Sam Son Low Armchair is an easy armchair with a hint of a cartoon character. Supported on four stilt legs, the armchair features a softly suspended seat shell between a giant, horseshoe-shaped element, the chair's characteristic armrest and backrest. Made from two different rotational moldings, the armchair combines a rigid plastic for its base and a more elastic polymer for the upper part. The exaggerated size of the armrest and backrest provides comfort and support and creates a protective space for sitting, suitable for both indoors and outdoors.
