Serenity Ceiling Light

By Currey and Company

Description

Clarence Mallari designed the chic Serenity Ceiling Light with its intermingling of dark, light, and bright tones. Made of metal, the outer perimeter is richly hued in a mix of satin black and painted contemporary gold finishes. The acrylic diffuser is fitted to the black ceiling light with a minimal finial in a sugar white finish. A design detail of note is how the integrated LED light wafts through the shade to illuminate the gold band.

Shown in contemporary gold leaf / black / white
