## T.O Pendant

By Pablo

### Description

The cylindrical shape of the T.O Pendant symbolizes the role light plays as an essential pillar of our everyday lives. The pendant's sleek, wand-like form houses an integrated LED light source behind a PMMA diffuser to provide soft warm light. The pendant is suspended by a pair of nylon straps and can be rotated 360 degrees to direct light downwards for task lighting or upward for ambient illumination. Driver located within canopy. Note: The lamp can be turned on/off via wall switch or with the button located on the pendant, but its dimming function is only controllable via the dimmer button located on the body of the pendant.
