Prismatic Color Select Pendant

By Studio M

Description

A low-profile dish is stacked with a thick textured glass shade to give the Prismatic Color Select Pendant its unique layered style. A leather accent on the stem complements the shades and completes the mixed-material aesthetic. The integrated LED light is concealed to reduce glare while providing ample illumination for your dining area or living room. Color temperature is adjustable, and a dimmer switch is located on the canopy. The 2022 Chicago Athenaeum Museum of Architecture & Design Good Design Award winner.

Shown in black / clear ribbed
