Drum Pendant

By Lucitalia

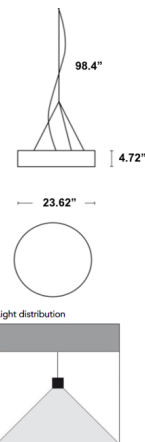

Description

The Drum is a suspension lamp with direct light emission. The geometric perfection conferred by the circularity of this luminaire, combined with the simplicity of the lighting body, allow for various installation possibilities: single in residential contexts, modular in reception areas or large commercial spaces. The visual comfort generated is guaranteed by the presence of the opal or microprismatic diffuser that closes the body of the lamp, emitting a soft but high-performance light. Includes plate to cover standard US junction box.

Shown in matte white / white

Specifications
