Ta-Ke Floor Lamp

By Michael Anastassiades

Description

The Ta-Ke Floor Lamp consists of a cylindrical glass shade suspended from bamboo posts for a unique combination of natural materials and contemporary shapes. The elongated shape of the glass tube is echoed in the bamboo poles but contrasted by the bamboo's inherent irregularities. The lamp is anchored by a round, powder-coated metal base that provides structural stability as well as visual weight. Dimmer switch located on cord.

Shown in natural waxed bamboo / opal
