Spheric Baby Ottoman

By Noom Home

Description

The Spheric Baby Ottoman pays homage to the Bauhaus school's pioneering work in modern design in the 20th century. The Bauhaus movement is known for objects and buildings composed of simple geometric forms and a focus on the intersection of functionalism and artistic expression. These design principles are still relevant today and are reflected in the Spheric Ottoman's simple, spherical form. The simple rounded shape gives the piece a sculptural elegance that remains playful and inviting for more casual spaces. Pair the ottoman with coordinating pieces from Noom Home's Gropius collection, or simply add it to any space in need of an footrest or decorative accent.
