Chicago Wood Doors Sideboard By Punt Mobles

Description

Inspired by the modernist architecture and the unobstructed repetitive building techniques known from the mid century, the Chicago cabinet collection stands as a tribute to this particular architectural period. With its light and floating appearance, the Chicago Wood Doors Sideboard almost appears as a piece of modern architecture itself. The elevated solid steel construction gives stability and structure while the floating wooden cabinet adds the spatial impression. The Marquina Silestone tabletop, functioning as a floating roof with its extended eaves, completes the minimalistic framework combining three simple natural materials: wood, steel and stone.
