Cannon Plug-In Swing Arm Wall Light

By Troy Lighting

Description

A dome-shaped Patina Brass shade at the end of a long, slender arm with exposed hardware give the Cannon Wall Light its retro industrial vibe. High-end details like the intricate knurling on the handle and socket add an air of sophistication. Both the arm and lamp angles are fully adjustable, making this slim-profile, plug-in sconce perfect for spaces that could benefit from customized lighting. Can be used as a plug-in or for hardwire installation. On/off switch on socket. Note: This fixture does not mount to a standard junction box - a 2x4 inch junction box is required when hardwired.

Shown in patina brass
