Focaccia Solo Tunable White Desk Lamp By Koncept Lighting

Description

The Focaccia Solo Desk Lamp is perfect for any contemporary workspace or living space needing a sleek, energy-efficient lighting solution. Its compact design features a slim arm and head that swivel independently for precise positioning. The square head casts a diffused LED light, providing concentrated task lighting with minimal harsh shadows. Touch controls on the lamp head are used for power on/off, full-range dimming, and color temperature adjustment (tunable 2700K-5000K). Phones and other devices can be charged using the 1.5A USB-C port near the base. An occupancy sensor shuts the lamp off after 15 minutes of inactivity. Additional eco-friendly features are low power consumption, fully recyclable aluminum construction, and use of water-based paint. Choose from a standard square table base, a wireless charger base, or various options for mounting onto a table to save space. The wireless charger base is powered by plugging it into the USB-C port.

Specifications
