Focaccia Solo Tunable White Plug-in Wall Light By Koncept Lighting

Description

The Focaccia Solo Wall Light is perfect for any contemporary workspace or living space needing a sleek, energy-efficient lighting solution. Its compact design features a slim arm and head that swivel independently for precise positioning. The square head casts a diffused LED light, providing concentrated task lighting with minimal harsh shadows. Touch controls on the lamp head are used for power on/off, full-range dimming, and color temperature adjustment (tunable 2700K-5000K). Phones and other devices can be charged using the 1.5A USB-C port near the base. An occupancy sensor shuts the lamp off after 15 minutes of inactivity. Additional ecofriendly features are low power consumption, fully recyclable aluminum construction, and use of water-based paint.
