Bund Side Table

By Stellar Works

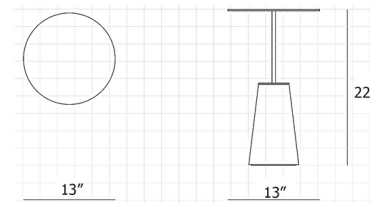

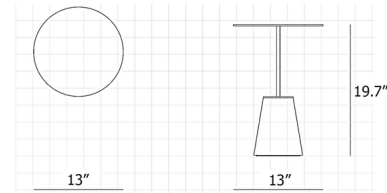

Description

The Bund Side Table takes both its name and design cues from the Bund area of Shanghai, home to an eclectic combination of architectural styles brought by the international traders based there in the late 19th and early 20th centuries. The side table features a conical marble base topped by a slim steel stem and round tabletop in an aged gold finish. These luxurious materials elevate the table's streamlined design with a rich texture that pays homage to the Art Deco influence of the Bund.
