Power Supply Enclosure and Connection Box

By WAC Lighting

Description

The Power Supply Enclosure and Connection Box is an enclosure to house a small size electronic transformer. Has separate compartments for transformer and line voltage wiring. The slim design allows the box to be placed through the same cut-out hole as a recessed fixture. Note: Holds one WAC Lighting EN-1260-R-AR, EN-1275-R-AR or EN-1260-R2 electronic transformer. One green grounding wire in primary connection compartment. The box has standard size knock outs for BX or non-metallic sheathed cable connectors. Use for all initial installations to ensure safe and primary side connections in a wiring compartment.Knockouts: 4 total - 2 on dual compartment side (one for each compartment), 1 on each end (2) of box.
