Node Chandelier

By Anony

Description

The Node Chandelier uses the language of circles to present a delicate imbalance. A glass sphere traces its perimeter through a steel cylinder, attached at the source of light - the node. Three pendants cascade from a single canopy, creating an intriguing contrast of material and opacity. Note: Finish refers to the finish of the ceiling canopy; color refers to the color of the cylinder on the pendant. Only the 3-light comes with the black canopy.
