

BRAND Diesel Living

DESCRIPTION

The Rod Rechargeable Table Lamp was inspired by the form and texture of construction rod or rebar, which is reflected in the lamp's stem. Rod features a built-in rechargeable battery, allowing the lamp to be used wherever its light is needed. A button on top of the lamp controls the built-in three step dimmer to set the brightness level. Portable and rechargeable via a C-type-USB port, which is protected by a rubber cap. IP54 rated for outdoor locations.
