Rod Rechargeable Table Lamp By Diesel Living

Description

The Rod Rechargeable Table Lamp was inspired by the form and texture of construction rod or rebar, which is reflected in the lamp's stem. Rod features a built-in rechargeable battery, allowing the lamp to be used wherever its light is needed. A button on top of the lamp controls the built-in three step dimmer to set the brightness level. Portable and rechargeable via a C-type-USB port, which is protected by a rubber cap. IP54 rated for outdoor locations.
