DESCRIPTION

The Gustave Residential Portable Table Lamp is specially designed for indoor or outdoor tabletop lighting applications and other uses as supplementary lighting. Its stylish compact design incorporates innovative optical and light technology, and a convenient touch button underneath the shade controls on/off and continuous 0-100% dimming. The lamp is powered by two rechargeable lithium ion batteries which are included along with a USB-A to USB-C charging cable. (Note: An AC adaptor for the USB cable is not included.) The batteries are charged by plugging the USB cable into the lamp while the lamp is off. A full charge lasts 6 hours at 100% brightness, 10 hours at 50%, or 18 hours at 25%. It takes 5-6 hours to fully charge.
