Tribeca Tall Table

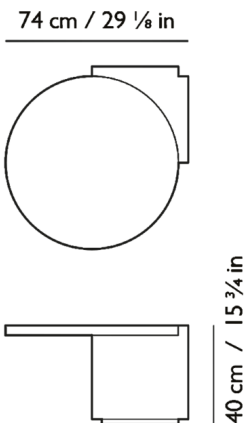

By Lee Broom

Description

The Tribeca Tall Table features a minimalist, geometric design with a circular tabletop cantilevered over a square base. This placement creates the illusion of the tabletop floating in air for a light expression that balances the visual weight of its black marble and travertine construction. While Tribeca can stand on its own as the decorative centerpiece of a room, it is especially striking when paired with the Tribeca Wide Table.

Shown in travertine / black marble
