Elara Pendant

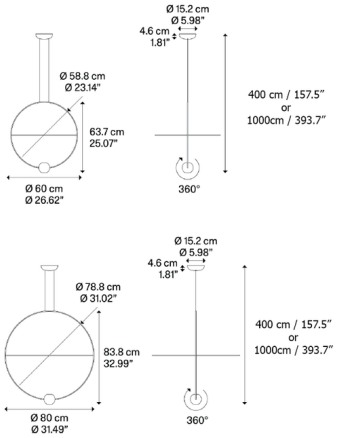

By LODES

Description

The Elara Pendant, named after one of Jupiter's moons, evokes the image of celestial bodies in orbit with its geometric design. One of the pendant's rings can be angled, while the other supports a small globe housing the pendant's LED light source. The globe emits light in opposite directions at two levels of intensity, one direction at 2260 lumens and the other at 845 lumens, and it can be rotated to aim the beams of light and create dramatic shadows. When installed on its own, Elara is suitable for residential use above a dining table or living room, while a grouping of multiple pendants can be used in larger commercial applications such as lobbies or restaurants. Available with 4 meter (157.48 inch) or 10 meter (393.7 inch) cord. Dimmable with TRIAC dimmers.

Shown in black

Specifications

COLOR	N/A
BODY FINISH	Black
WATTAGE	27W
DIMMER	Standard 120V
DIMENSIONS	22.62"W x 25.07"H
INTEGRATED LED MODULE	1 x LED/27W/120V LED

Technical Information

COLOR RENDERING	90 CRI
