Volum Wall Light

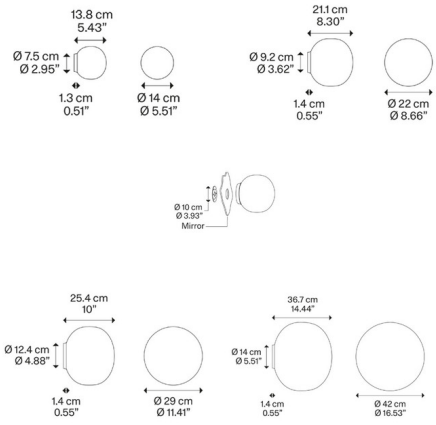

By LODES

Description

The Volum Wall Light is composed of a blown glass globe with a curving organic shape that evenly disperses light in all directions. The translucent silicone base also allows light to pass through to reduce uneven shadows and hotspots. Volum is available with a standard mounting that can be installed on the wall or ceiling, or with a mirror mounting flange that allows it to be flush mounted onto a standard 4 inch junction box behind a bathroom vanity mirror.

Shown in white / glossy white
