Veer Smart Ceiling Fan with Light

By Minka Aire

Description

Enhance your space with the refreshing airflow and ambient illumination of the Veer Smart Ceiling Fan with Light. Its distinct profile is defined by cleverly designed blades, arranged to appear detached yet overlapping one another in a wraparound style. A chic, clear diffuser completes the contemporary look. The included hand-held remote control with wall holder (RCS213) enables motor on/off, 3 speeds, light on/off and full range dimming. Fan direction can be reversed using a switch inside the housing. The Veer can also be controlled through your smartphone or other device using the Bond Home app, and it integrates with smart home systems including Amazon Echo/Alexa, Google Home, Nest and ecobee to enable voice control. Optional accessories are sold separately.

Shown in coal / coal
