## Liberty Lounger

By Moooi

## Description

Joep van Lieshout conceived the Liberty Lounger as part of his Prototypes project, a series of chairs that explored the relationship between creators and their materials and the value of raw, hand production. These ideas are reflected in Liberty's clean-lined, angular silhouette crafted from solid American walnut. An elongated armrest along the right side of the chair doubles a side table. Liberty also includes a soft sheepskin which can be used as a seat cushion. As much a sculptural object as a functional furniture piece, Liberty will make a bold statement in a modern interior.

Shown in walnut

## Specifications
