Peonia Armchair

By Pianca

Description

The Peonia Armchair designed by Cristina Celestino for Pianca unfurls like a flower in Spring and it is indeed nature, with her perfect geometries, that provides the inspiration for Peonia's creative genesis. Sculptural and inviting, it captures the eternal becoming of every living thing in its forms; the tension to a constant and inescapable perpetual movement. The shell of the armchair is composed of different surfaces, arranged in an evocative crescendo that recalls the petals of a corolla. The modular geometric forms allow infinite combinations to be created, experimenting with various levels and heights, solids and voids.
