Phobos Chandelier By Visual Comfort Modern

Description

The simplicity of tubular light is displayed in an angular, geometric arrangement on the Phobos Chandelier, a striking contemporary piece for your space. Laser-etched light guide channels encased in borosilicate glass diffuse the light to provide ambient illumination for foyers, dining areas, and living rooms. 120V: TRIAC and ELV dimmable. 277V: 0-10V dimmable. The Natural Brass fixtures have a living finish that will patina over time, developing warm character. If the patina becomes uneven or spotty, a brass cleaner can restore the finish.
