Trellis Spacer

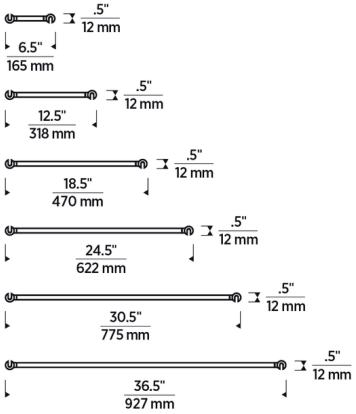

By Visual Comfort Modern

Description

The Trellis Spacer is a straight rod used for creating your desired arrangement of Visual Comfort Modern Trellis collection pendants and chandeliers. Use it individually or in multiples to form unique geometries and add depth and dimension to your installation. It can be added post-installation, easily securing to the cables. The Natural Brass is a living finish that will patina and warm over time, enhancing its richness. If the patina becomes uneven or spotty, a brass cleaner can restore the finish.
