Loyd Swing Arm Wall Light By WAC Lighting

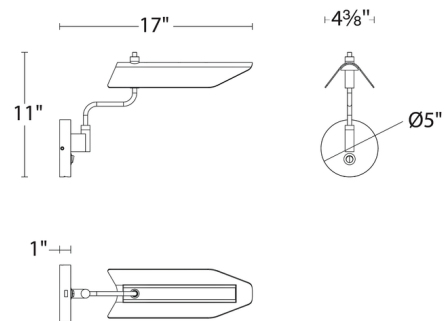

Description

The Loyd Swing Arm Wall Light is a bold, modern take on the classic banker's lamp. A bent metal arm extends from the circular backplate to support the folded metal shade. Light from the integrated LED is reflected outwards by the shade to provide illumination while reducing glare. The arm can swing 180 degrees to aim light for reading or other tasks. An on/off switch and USB charging port are conveniently located on the backplate, making Loyd perfectly suited for use as bedside reading lamp.

Shown in aged brass / black

Specifications
