Elbo Swing Arm Wall Light

By WAC Lighting

Description

The Elbo Swing Arm Wall Light is a versatile, multi-directional wall light with a streamlined, modern aesthetic. The LED light source is housed within a circular lamp head behind a screen-printed glass diffuser to provide diffused illumination. The swing arm can be swiveled 180 degrees side-to-side and the head can be rotated up to 330 degrees to aim the light beam. Elbo's use of simple geometric forms gives it a minimalist style that can complement a variety of interior decor styles. On/off switch and USB charging port located on bottom of backplate. Note: Fixture will be preset at selected color temperature but can be toggled between 2700K, 3000K, or 3500K prior to installation via a CCT-select switch in the canopy.
