# Pixels Wireless 24V DMX LED Controller
By WAC Lighting

Description

The Wireless DMX LED Controller is a professional-grade LED controller that can delivers RGB/Tunable White control to WAC Lighting Pixels products. Independently control Red, Blue, Green, 2700K and 5000K channels to create dramatic lighting scenes. The controller accepts 3x 96W or one 300W power supply input, and features 3x 96W outputs for added versatility. The controller can be operated wirelessly via the Wallstation Scene Controller by WAC Lighting or the WAC mobile app, which can also be linked to smart home applications such as Google Home and Amazon Alexa. Includes three 6 ft output cables to connect to WAC Pixels lighting.
