Stealth Silo Monopoint By WAC Lighting

Description

The Stealth Silo Monopoint offers superior light output in a compact and unobtrusive housing. The beam angle is continually adjustable from 15 to 50 degrees, allowing the fixture to provide focused spot lighting, general flood lighting, or anything in between. The lamp head can be rotated 360 degrees and vertically aimed up to 90 degrees to direct light precisely where it is needed. An integrated LED driver makes the Stealth Silo easy to install in both residential and commercial applications. Can be mounted on ceiling or wall in all orientations. Dimmable 100% to 5% with TRIAC (120V only) or ELV dimmers.
