Jedi Pendant By WAC Lighting

Description

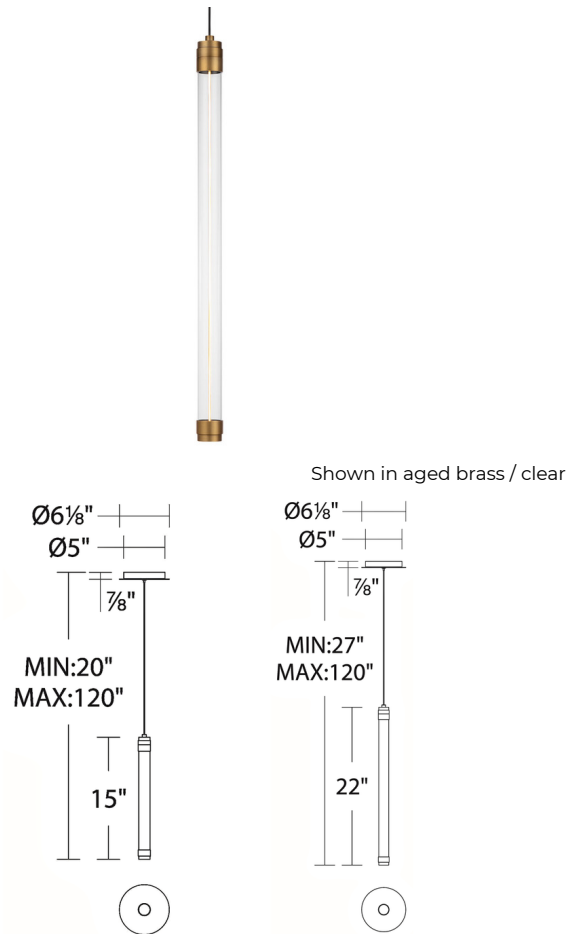

Despite its simple shape, the Jedi Pendant will make a dramatic statement with its unique LED filament technology. The thin, elongated LED casts light all around the pendant, creating the illusion of an illuminated cylinder suspended in the air. Aluminum caps on the top and bottom of the pendant complete the look with a neat accent. Dimmable with ELV (100% to 5%) and TRIAC (100% to 10%) dimmers.
