Aether Atomic 11N Round Trimless Remodel Housing

By WAC Lighting

Description

The Aether Atomic 11N Round Remodel Housing is a low-profile recessed housing that provides superior light output from its small aperture. With its small aperture size, Aether provides illumination without drawing attention to itself for a clean, quiet look. The low housing height makes it ideally suited for use in shallow plenums. Accommodates round Aether Atomic 11N pinhole and downlight trims. Note: A complete fixture requires an Aether Atomic 11N round trim by WAC Lighting and remote power supply, sold separately. Dimmable with ELV, TRIAC, and 0-10V dimmers. The Remodel Housing may also be used in new-construction applications with the optional frame-in kit, sold separately.

Specifications

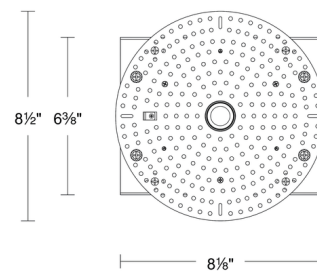

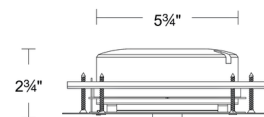

REFLECTOR/BAFFLE COLOR	N/A
BODY FINISH	Galvanized
WATTAGE	11W
DIMMER	Low Voltage Electronic
DIMENSIONS	8.5"W x 2.63"H x 8.13"D
