Jedi Wall Sconce By WAC Lighting

Description

Despite its simple shape, the Jedi Wall Sconce will make a dramatic statement with its unique LED filament technology. The thin, elongated LED casts light in all directions around the sconce for even illumination. Aluminum caps on the top shade complete the look with a neat accent. Can be mounted on wall vertically or upside down. Dimmable with 100% to 10% with ELV dimmers.

Shown in black / clear
