Enigmatic Wall Light

By WAC Lighting

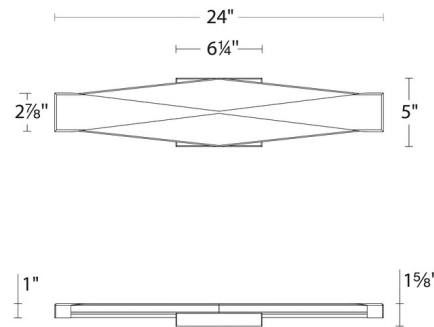

Description

The Enigmatic Wall Light features a clean-lined, geometric design with a black aluminum frame and etched acrylic panel. The acrylic panel is dotted with laser-etched light guides which give it a frosted appearance and evenly disperse light from the integrated LED. Dimmable 100% to 5% with ELV or TRIAC dimmers. May be mounted horizontally or vertically. Note: Fixture will be preset at selected color temperature but can be toggled between 2700K, 3000K, or 3500K prior to installation via a CCT-select switch in the canopy.
