Poldina Upside Down Rechargeable Table Lamp

By Zafferano America

Description

The Poldina Upside Down Rechargeable Table Lamp brings a futuristic appeal into your home through its technological design. This portable and rechargeable LED lamp emits a clean glow throughout a space, while the Poldina's thin body holds a variety of objects in its base. The color temperature can be set to 2200K, 2700K or 3000K (234-251-256 lumens) to set the perfect ambiance for any occasion. Bring the Poldina wherever you go or place it next to your favorite armchair or desk. To charge the lamp, connect the USB cable to the adaptor and plug into an electrical socket. Place the lamp on the included charging base. When fully charged (6-7 hours) disconnect the plug from the electrical socket. A quick tap on the top of the lamp turns it on and off. When the lamp is switched on, lightly press the touch sensor to obtain the desired brightness. Every time you turn it on, the light intensity returns to 100 percent. Battery lasts about 9 hours at full charge. Suitable for indoor/outdoor (IP54) locations.
