Moon Bluetooth Portable Table Lamp

By Fermob

Description

The Moon! Bluetooth Portable Table Lamp takes its styling cues from 19th century street lights. It's smaller than its ancestors but not short on features, with two light temperature settings (cool white 6000K and warm white 3000K) and a dim up and dim down function so you can switch it on and off gradually with smooth transition. The rechargeable lamp includes a USB cable and charging base and is ideal for long evening (7-13 hours). Touch-operated control or remotely using the integrated Bluetooth system compatible with the Fermob Lighting app.
