Luce Orizzontale Linear Pendant By FLOS

Description

Experience a perfect blend of poetry and function with the Flos Luce Orizzontale Linear Pendant, a testament to remarkable craftsmanship and sculptural form. This minimal yet striking modular structure is composed of exquisite cast glass cylinders, each uniquely created by pouring molten glass into a mold. During this artisanal casting process, each piece develops distinct markings, giving it an authentic, one-of-a-kind quality and an intriguing texture. LED light shines brilliantly out through these handcrafted glass elements, producing a captivating effect of light reflection and refraction that mesmerizes the eye and bathes the space in an intriguing glow. The Luce Orizzontale is available in three versatile lengths: a concise 65.2 inches (model S1), a more expansive 81.5 inches (S2), and a grand 98 inches (S3) allowing for tailored installation in various spaces. Please note, due to its substantial weight, this fixture requires a junction box rated for fixtures weighing over 50 pounds, ensuring secure and proper installation. It's an ideal choice for creating a powerful statement of contemporary elegance and artisanal quality in dining rooms, living areas, or large open spaces.
