Tonda Pendant By Foscarini

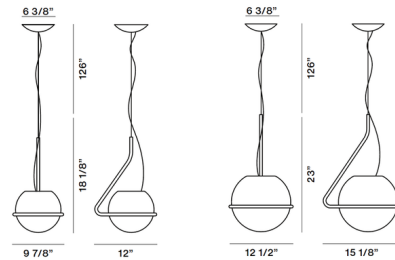

Description

The Tonda Pendant is a magical game of balance that catches the eye. Simultaneously sophisticated and pop, it pulls influence from Radical Design of the 1960s and 70s and achieves a perfect blend of form and function. The opaline glass globe diffuser rests on a powder-coated steel support precisely shaped to hold it without being attached to it. The glass is hand-blown and shifts from white at the top to translucent below for an enchanting effect.

Shown in titanium / white
