Donnell Pendant

By Hudson Valley Lighting

DAMP

Description

Two different types of glass make the Donnell Pendant feel special and sophisticated. A detailed finished band at the center separates the clear glass above from the opal glossy glass beneath for a visually interesting design that not only draws the eye when unlit, it beautifully pairs a brighter light with a soft glow when lit. This pretty pendant feels right at home styled over the kitchen island.

Shown in aged brass / clear/ opal
