Bremsen Wall Light

By Hudson Valley Lighting

Description

A large rectangular piece of alabaster is backlit by an LED, producing a warm glow that accentuates the long, graceful seam down the front and highlights the stone's delicate veining in the Bremsen Wall Light. The simple, almost completely hidden Aged Brass metalwork allows the true beauty of the alabaster to shine. Bremsen is a straightforward sconce that blends well with modern interiors. Can be mounted vertically or horizontally. Dimmable via electronic low voltage (ELV) or Triac dimming.

Shown in aged brass / alabaster
