Fireman Floor Lamp By Karman

Description

The Fireman Floor Lamp is inspired by the extension ladders carried by fire trucks, with an adjustable neck that can be raised or lowered to best suit different applications and environments. The top of the lamp holds two light sources: a main downward light and a smaller adjustable accent light which can be aimed up or down. Fireman's open frame gives the piece an industrial look reminiscent of scaffolding for a unique, modern look. Includes power supply.

Shown in black / opal
