## Attic Lateral Cylinder Pendant

By LedsC4

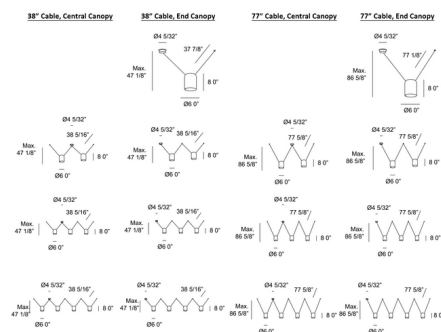

### Description

Personalize your lighting setup with the Attic Lateral Cylinder Pendant. This innovative system is made up of cylindrical aluminum shades suspended on adjustable cables. Tailor the hanging height and spacing of the lights to suit your needs by selecting the ideal cable length from two available options, and experimenting with anchor point positions on the ceiling. Two canopy options are available: the end option is positioned at the endpoint of your cable arrangement, and the central option is at one of the intermediate points. Available with 38 or 77 inches of cable from the pendant to ceiling. The Attic offers a creative, modern design element and plenty of illumination for kitchens, dining areas and workspaces.

Shown in black / black
