Attic Cylinder Wall Light

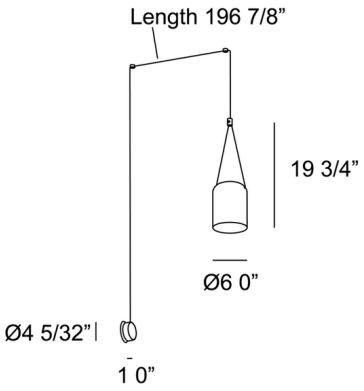

By LedsC4

Description

The Attic Cylinder Wall Light is an innovative fixture where the cable becomes an eye-catching element of the overall design. Anchor points guide the cable up the wall and across the ceiling, forming a distinctive angular configuration. A sleek aluminum shade hangs from the cable, completing the simple yet intriguing aesthetic. You can position the anchor points to achieve a hanging height and light location that perfectly fit your needs. The Attic complements many interior design styles ranging from contemporary to industrial, and elevates any space with its modern appeal.
