## Super Attic Wall Light

By LedsC4

### Description

The Super Attic Wall Light is an innovative fixture where the cable becomes an eye-catching element of the overall design. Anchor points guide the cable up the wall and across the ceiling, forming a distinctive angular configuration. A sleek aluminum shade hangs from the cable, completing the simple yet intriguing aesthetic. You can position the anchor points to achieve a hanging height and light location that perfectly fit your needs. The Super Attic complements many interior design styles ranging from contemporary to industrial, and elevates any space with its modern appeal.
