Studio Nucleo Carpet

By Qeeboo

Description

The Studio Nucleo Carpet was inspired by the studio's project Stone Fossils, in which they used epoxy resin and pigments to create jewel-like forms with layers of color and transparency beyond the possibilities of the natural world. Studio Nucleo has applied these uniquely ethereal colors to a rug to create an enchanting abstract piece that will enhance any interior. The variety of color in each rug allows it to complement other furniture and decor in its environment to unite the space visually.

Shown in green onyx

Specifications
